|---|---|
| **Professional Summary** | With a passion for coding and natural talent for problem-solving, I'm out there to create a positive change in the software development industry. I am a quick learner and enjoys staying current with the latest trends and best practices. Excited and looking forward to collaborate with others to innovate projects and solutions. I'm willing to take up new projects on a full-time or freelance basis. |

**Work History**

SEPTEMBER 2023-CURRENT
**Software Engineer** | Web Razors

- ✓ Created a responsive user interface for the React application, ensuring optimal display on diverse devices.
- ✓ Implemented advanced frontend logic using modern JavaScript features to enhance application performance.
- ✓ Led end-to-end development of a MERN application, covering React frontend, Express.js backend, and MongoDB data management.
- ✓ Integrated RESTful APIs for real-time data fetching and updates, improving application functionality.
- ✓ Employed Redux for efficient state management across React components.
- ✓ Developed server-side logic using Node.js and Express, implementing RESTful routes and middleware.
- ✓ Designed and managed MongoDB databases, ensuring effective data models and integrity.

MARCH 2022-CURRENT
**Web Developer** | Upwork | Freelance

- ✓ Developed a mobile-friendly business website using HTML, CSS, and JavaScript.
- ✓ Customized WordPress themes to align with client branding and functional requirements.
- ✓ Integrated APIs to fetch real-time data and display dynamic content on websites.
- ✓ Improved load times by 30% through optimizations like image compression and lazy loading.
- ✓ Ensured websites were compatible across browsers and devices for a seamless user experience.
- ✓ Collaborated closely with clients, providing regular project updates and incorporating feedback.

**Education**

**Egerton University** 2009 -2013 | Bsc. Economics & Statistics (Bachelor)
**Moringa School** 2022 -2023 | Software Engineering (Bootcamp)

**Skills**

HTML5, CSS3, JavaScript, React, Node.js, Express.js, Ruby, Ruby on Rails, SQL, Postgress, MongoDB, Tailwindcss, Git, Wordpress, Figma

**Projects**

I have completed these Projects since my graduation in June 2023
**Web Razors | Mern App**
https://web-razors.vercel.app/
**Portfolio Website |** React-App – Landing Page
https://davy-portfolio-three.vercel.app/
**Web Razors | Mern App with basic Authentication**
https://weblog-client.vercel.app/
**Mavotravos | Mern App**
https://mavotravos.vercel.app/
